with some 280 colour illustrations introduction to modern design takes us on a visual survey of design from the industrial revolution of the eighteenth century to the maker movement of today it offers a new understanding of the birth of modern design in the early twentieth century and chronicles the way its meaning has changed over the decades the narrative is supported by twenty six readings from significant texts by designers and critics offering readers an opportunity to learn about design from those who created it and those who commented on it as it was done the focus of this book is on the objects themselves from industrial design furniture ceramics textiles graphics electronics to automobiles and explores the development of these designs in relation to industrialization technology environmental responsibility consumerism individual needs and the expression of the social values of their day clearly written and accessible introduction to modern design provides a succinct history of and fascinating insights into the world of design

grappling with the place of jewish philosophy at the margin of religious studies robert erlewine examines the work of five jewish philosophers hermann cohen martin buber franz rosenzweig abraham joshua heschel and joseph soloveitchik to bring them into dialogue within the discipline emphasizing the tenuous place of jews in european and particularly german culture erlewine unapologetically contextualizes jewish philosophy as part of the west he teases out the antagonistic and overlapping attempts of jewish thinkers to elucidate the philosophical and cultural meaning of judaism when others sought to deny and even expel jewish influences by

reading the canon of jewish philosophy in this new light erlewine offers insight into how jewish thinkers used religion to assert their individuality and modernity

the sikh religion has a following of over 20 million people worldwide and is one of the largest religions in the world however events such as the verbal and physical attacks on sikhs just after september 11 indicated that sikhs were being mistaken for muslims and suggests that the raising of sufficient and appropriate awareness about sikhism still needs to be addressed this book will introduce newcomers to the meaning of sikhism and its practices rituals and festivals the key threads in the fascinating history of the religion will be highlighted from the gurus and the development of the sikh look to martyrdom and militarization in the 17th and 18th centuries and the diaspora eleanor nesbitt brings the subject completely up to date with an examination of gender and caste referring to contemporary film such as bend it like beckham and media reports about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

a true introductory text for learning the spectroscopic techniques of nuclear magnetic resonance infrared ultraviolet and mass spectrometry it can be used in a stand alone spectroscopy course or as a supplement to the sophomore level organic chemistry course

jin feng proposes that representation of the new woman in communist chinese fiction of the earlier twentieth century was paradoxically one of the ways in which male writers of the era explored negotiated and laid claim to their own emerging identity as modern intellectuals

Recognizing the
mannerism ways to get
